

## **SCR Website Report**

February 2021

I am in the process of changing hosting providers from Datarealm to Wix. Up until now, I've created both the SCR website and the Seminar websites by using code but that seems to be old school now. Most people use a drag and drop template to create websites. The move to Wix will allow more flexibility when the time comes for me to step down as webmaster. The cost is \$216 per year which is still reasonable for website hosting.

I've also been working on updating the chapter information that has been provided by the Chapter Officer Report Form and the Chapter Annual Report Form. If your chapter hasn't completed these forms, I'll be in touch with you soon!

Seminar 2021 is updated regularly as directed by Sandy Crow. Information for Seminar 2022 will be provided soon as they are still gathering teacher information.

Updating everything is a work in process so your patience is greatly appreciated. Any and all constructive suggestions, comments, etc. are welcome!

Respectfully submitted,

Jane Major
